CIRCULAR

The *Green Initiative Committee* of our college is pleased to announce the observance of “No Vehicle Day” on 04/11/2025, Tuesday. This initiative aims to create awareness about reducing air pollution, conserving fuel, and promoting sustainable modes of transport. All students, teaching staff, and non-teaching staff are encouraged not to bring their personal motor vehicles (two-wheelers or four-wheelers) to the campus on this day. Instead, we request everyone to use public transport, bicycles, or walk to college, thereby contributing to a cleaner and greener environment.

Your active participation will make this initiative a grand success and help us move one step closer toward building an eco-friendly campus. Let us all join hands to make our campus an example of environmental responsibility and sustainable living.

Let's pedal or walk today for a better tomorrow!
